

MATH GAME FOR GROUPS

from Barbara Buie, Hoke County Literacy Council

Point value of cards:

Joker	25
Ace	20
King	15
Queen	10
Jack	5
all others	face value

Leader calls a number and students have to present a card or combination of cards that

- add up to that number
- or subtract from each other to equal that number
- or multiply with each other to equal that number
- or divide into each other to equal that number

Object is to get rid of all cards first. - Make sure there are prizes available.
